Mahfuz Ibne Syful

Shibganj, Sylhet
01732389350
mahfuzibnesyful24@gmail.com

Eager to learn and apply new technologies.
Enthusiastic about creating efficient and user-friendly software solutions

PROJECTS

SurveySync, self-project — *JavaScript*

A full-stack web platform where users can create surveys and collect real-time votes, built using the MERN stack.

Uniqnect, team-project — *TypeScript*

Developed a full-stack university management platform with role-based access for admins, students, and teachers using the MERN stack.

NoteApp (Android), self-project — *Java*

Created a simple Android notes application using Java as my first development project.

EDUCATION

North East University Bangladesh

BSc (Engg.) in CSE, (2021 - 2025)

Completed B.Sc. in Computer Science & Engineering (Final result pending).
